

Blind Doge

White paper

Revision v.1 May 2021

Abstract

Blind Doge will change the world using Blockchain Technology. We have a unique concept which we have integrated into our Decentralized Finance, as you are aware the crypto world brought a revolution in the last few years. It is developing into one of the world's major players within business, finance, and investment.

Disclaimer

This document is issued by Blind Doge. It is a conceptual paper that is envisaged to form the economic basis for the establishment and creation of a crypto-economic token to be known as Bdoge token.

Nothing in this document or any of the information or proposals set out herein or in any papers or materials referred to shall form the basis of any contract between Blind Doge (or any of its holding companies, subsidiaries, associated undertakings or controlling persons, or any of its respective directors, officers, employees, agents, representatives, partners, or advisors) and any other person whatsoever.

Without limitation to the foregoing, no representation, warranty, or undertaking, express or implied, is made and no responsibility is accepted Blind Doge as to or to:

- A. The completeness or accuracy of this document or the proposals, information, formulae set out in this document whether expressly or via a link to other material our website
- B. The reasonableness with anything of any assumption.
- C. The accuracy of any predicted or unpredicted behavior of any algorithm, function, or system contained therein, including, without limitation, in respect of future funding needs and concerning limitations in the performance of any systems, performance or ledgers described here.
- D. Although Blind Doge is an EXPERIMENTAL token for social experiment. It is not a digital currency that's why the team strongly recommends that people from United States do not purchase it because the team cannot ensure compliance with United states regulations. Always make sure that you are in compliance with regulations and local laws before you make any purchase.

Introduction

- Decentralized finance (DeFi) is a fast-growing sector of the cryptocurrency world. While cryptocurrency coins are creating a decentralized store of value which separates it from any government-backed fiat currency, DeFi is creating decentralized financial instruments which are separated from traditional centralized institutions.
- Although still small when compared to the global economy, DeFi has seen rapid growth in the last few months. In early 2019, there was only \$270M of crypto collateral locked in the DeFi economy. By February 2021, that number had grown to \$3B, and it has continued to grow impressively throughout the year.
- This growth shows that the crypto community takes significant interest in DeFi, but it's still a small enough sector that many outside the industry may not have heard of DeFi yet. So, let's have a look at what DeFi is, and why it is so exciting.

Project Overview

- The illness of a child in a rich family led to a sharp regression of vision, which made the child's family realize that the life of the blind is not easy. By coincidence, they, as investors, developed this project with our project department. He wants to appeal to everyone to care for the blind through this project. We are determined to establish more guide dog training schools and rescue stray dogs. In order for others to believe that we have funds and will pull the offer.

Use Case

Alice and Bob want to buy their dream house or to buy any asset, but the bankers have declined their application. They have limited funds available and with that they can't afford to have their dream. They both believed in the underlying technology of cryptocurrencies and believed the mid and long-term growth of the asset class .

Both have been paying attention to Defi and all the new Yield farming high APY returns that they could earn These potential earnings may be short lived but are real for the time being. they noticed there was a high transaction fee and to claim rewards or to stake they were using a web interface.

How do both take advantage of Blind Doge?

- Blind Doge applies a 15% fee to each transaction and the fees are instantly split and distributed as \$ BNB rewards / dividends among all token holders. 10% BNB rewards gets split between holders and 3% will be added to Liquidity pool and 2 % goes to charity wallet to save doges and support Blind People . Blind Doge utilizes the latest protocol advancements on the bleeding edge of blockchain and smart contract tech and is laser focused on efficient, fast & frictionless yield generation for id holders
- Just holding on wallet, holders receive dividends with each transaction without any additional gas fees and directly to their wallets in real time. \$Bdoge is 100% decentralized and secure on the binance smart chain. There is no interface or website required to claim rewards or to stake your tokens. None of the vaults could be hacked or treasury funds that could be stolen or sold.

Protocol Architecture

The protocol has been designed as a fork codebase of RFI and modified to enable better features

We also have an added advantage of locking the liquidity for user protection, all adviser tokens will be placed in time locks smart contracts. Tokens will be distributed monthly and transparently. All smart contracts will be audited to guarantee safe and secure code now isn't that a breath of fresh air? as a full defi protocol a range of services does not end.

- - 10% Redistribution in BNB
- - Auto-paid : You hold and receive BNB every 60 minutes
- - 3% Liquidity pool
- - 2% Charity
- - Anti-whale : 0.1% max sell and +3% extra sell fee

Tokenomics

- Token Name : Blind Doge
- Symbol : \$Bdoge
- Total Supply : 1 Trillion
- Token Network: BSC

Token Distribution :

Air Drop	: 3%
Private sale	: 10 %
Presale	: 47 %
Pancake	: 33 %
Marketing	: 5 %
Team	: 2%
	100 %

ROAD MAP

- Launch to BSC Mainnet
- Initial launch to BSC Mainnet will take place on June 2021.
- Multiple Audits
- Audits will be applied for & completed by several well-known auditing groups and individuals.

- Coingecko & CoinMarketCap
- Multiple Listing services including but not limited to, Coingecko & CoinMarketCap will be applied for.
- Strong marketing strategy for growth
- HODL Rewards
- Strategic Connections

- Major Exchange Listing
- Apply for multiple major centralized exchanges
- Futures Trading and Project Development

Phase 1 – 2021

Phase 2 – 2021

Phase 3 – 2021
